### Wolverine Execution Services, LLC:

Webull Financial LLC ("Webull") routes U.S.-listed options orders to third-party market centers to facilitate liquidity provision and price improvement opportunities for its customers. The third-party market centers route and execute Webull customer orders. In exchange for such routing, Webull receives payments from the third-party market centers in the amounts outlined in the above Public Order Routing Report disclosures (i.e. payment for order flow). In order to avoid conflicts of interest for Webull's routing decisions, the market center pays Webull based on the same schedule.

For single leg orders in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a per contract rate for orders of 1 - 100 contracts of \$0.30, \$0.38, \$0.56, \$0.70, \$0.80 or \$1.00 for symbols assigned to one of six buckets. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and other symbols, Webull received a per contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a per contract rate of \$0.30, \$0.38, \$0.56, \$0.70, or \$0.90 for symbols assigned to one of five buckets.

For single leg orders in other symbols, Webull receives a per contract rate that depends on the average weighted quoted spread for all other symbols, as a whole, based on the prior month. Webull received a per contract rate for orders of 1 - 100 contracts of \$0.30, \$0.38, \$0.56, \$0.70, \$0.80 or \$1.00 for other symbols assigned to one of six buckets. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the other symbols, as a whole, based on the prior month. Webull received a per contract rate of \$0.30, \$0.38, \$0.56, \$0.70, \$0.90 for symbols assigned to one of five buckets.

Differences in average payments among venues are due to the mix of symbols executed at each venue. Webull attests to the retail nature of the orders Webull routes to third-party market centers upon their request. Non-exchange third party market centers compete for orders based on execution quality. The SEC Examination Staff has observed that there is a potential tradeoff between (i) payments received by brokers and (ii) price improvement and/or execution quality. Webull believes that the receipt of payment in the form of a portion of the spread earned by non-exchange third party market centers does not interfere with Webull pursuit of best execution or the price improvement obtained on customer orders.

Wolverine Execution Services, LLC:

Webull Financial LLC ("Webull") routes U.S.-listed options orders to third-party market centers to facilitate liquidity provision and price improvement opportunities for its customers. The third-party market centers route and execute Webull customer orders. In exchange for such routing, Webull receives payments from the third-party market centers in the amounts outlined in the above Public Order Routing Report disclosures (i.e. payment for order flow). In order to avoid conflicts of interest for Webull's routing decisions, the market center pays Webull based on the same schedule.

For single leg orders in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a per contract rate for orders of 1 - 100 contracts of \$0.30, \$0.38, \$0.56, \$0.70, \$0.80 or \$1.00 for symbols assigned to one of six buckets. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and other symbols, Webull received a per contract rate that depends on the average quoted spread for the symbol based on the prior month. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the other symbols, as a whole, based on the prior month. Webull received a per contract rate of \$0.30, \$0.38, \$0.56, \$0.70, \$0.90 for symbols assigned to one of five buckets.

Differences in average payments among venues are due to the mix of symbols executed at each venue. Webull attests to the retail nature of the orders Webull routes to third-party market centers upon their request. Non-exchange third party market centers compete for orders based on execution quality. The SEC Examination Staff has observed that there is a potential tradeoff between (i) payments received by brokers and (ii) price improvement and/or execution quality. Webull believes that the receipt of payment in the form of a portion of the spread earned by non-exchange third party market centers does not interfere with Webull pursuit of best execution or the price improvement obtained on customer orders.¶

#### Material Aspects:

Dash/IMC Financial Markets:

Webull Financial LLC ("Webull") routes U.S.-listed options orders to Dash/IMC Financial Markets ("Dash/IMC") for executing or facilitating the execution of Webull customer orders. Webull received payments for executed orders routed to Dash/IMC at the following rates:

1. For single leg orders, Webull receives a per-contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a rate for orders of 1 - 100 contracts of \$0.23, \$0.28, \$0.30, \$0.50, \$0.75, \$0.85 or \$1.00 depending on the symbol's average quoted spread from the prior month. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.10, \$0.13, \$0.25, \$0.35, \$0.60 or \$0.80 depending on the symbol's average quoted spread from the prior month. For single leg orders of 500 contracts or greater in some symbols, Webull receives \$0.05 per contract.

2. For multi-leg orders Webull receives a per-contract rate that depends on the average quoted spread for the other symbols, as a whole, based on the prior month. Webull received a per contract rate of \$0.50, \$0.65, \$0.80 or \$1.10 depending on the symbol's average quoted spread from the prior month.

The same rate is applied for all market makers for each respective order flow type. Webull does not negotiate payment as a condition for sending more order flow to a market maker nor does Webull negotiate a tradeoff between payment and price improvement/execution quality.

Wolverine Execution Services, LLC:

Webull Financial LLC ("Webull") routes U.S.-listed options orders to third-party market centers to facilitate liquidity provision and price improvement opportunities for its customers. The third-party market centers route and execute Webull customer orders. In exchange for such routing, Webull receives payments from the third-party market centers in the amounts outlined in the above Public Order Routing Report disclosures (i.e. payment for order flow). In order to avoid conflicts of interest for Webull's routing decisions, the market center pays Webull based on the same schedule.

For single leg orders in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a per contract rate for orders of 1 - 100 contracts of \$0.30, \$0.38, \$0.56, \$0.70, \$0.80 or \$1.00 for symbols assigned to one of six buckets. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and other symbols, Webull received a per contract rate that depends on the average quoted spread for the symbol based on the prior month. Webull received a per contract rate of \$0.30, \$0.38, \$0.56, \$0.70, or \$0.90 for symbols assigned to one of five buckets.

For single leg orders in other symbols, Webull receives a per contract rate that depends on the average weighted quoted spread for all other symbols, as a whole, based on the prior month. Webull received a per contract rate for orders of 1 - 100 contracts of \$0.30, \$0.38, \$0.56, \$0.70, \$0.80 or \$1.00 for other symbols assigned to one of six buckets. For single leg orders of 101 contracts or greater, Webull received a rate of \$0.15, \$0.19, \$0.28, \$0.35, \$0.40, or \$0.60 for symbols assigned to one of six buckets. For multi-leg orders and in certain symbols, Webull receives a per contract rate that depends on the average quoted spread for the other symbols, as a whole, based on the prior month. Webull received a per contract rate of \$0.30, \$0.38, \$0.56, \$0.70, \$0.90 for symbols assigned to one of five buckets.

Differences in average payments among venues are due to the mix of symbols executed at each venue. Webull attests to the retail nature of the orders Webull routes to third-party market centers upon their request. Non-exchange third party market centers compete for orders based on execution quality. The SEC Examination Staff has observed that there is a potential tradeoff between (i) payments received by brokers and (ii) price improvement and/or execution quality. Webull believes that the receipt of payment in the form of a portion of the spread earned by non-exchange third party market centers does not interfere with Webull pursuit of best execution or the price improvement obtained on customer orders.¶
