Payment varies based upon a number of factors including but not limited to: Size of the order, time of order placement, whether an order is marketable at the time of order entry, the underlying price of the security and any special handling instructions. These payments were not dependent upon volume-based tiered payment schedules, agreements regarding minimum order flow, incentives for exceeding order flow thresholds or disincentives for failing to meet order flow thresholds. eToro USA Securities receives payments from Apex for option order flow directed to certain option exchanges and broker dealers by customers. Compensation is generally in the form of a per-option contract payment. Apex shares a portion of these payments with eToro USA Securities. The portion of PFOF shared by Apex with eToro USA Securities for options trading, which is currently 85% of the amount Apex received for eToro USA Securities’ customer orders, may change or fluctuate from time to time. The details of these payments and fees are available upon written request.
